The horses that reside at our exceptional 45 acre property receive outstanding care and attention. John grew up on a horse farm just north of Toronto where his family had an average of 125 horses stabled at any given time. We started our first horse farm together in 1997, and had the opportunity to get into Standardbred horses in early 2010. We would be pleased to have your mare foal and/or be bred Ontario at our farm.
